INTRODUCTION

The world's view of crypto currency is changing drastically we believe the time of crypto currencies mass adoption is inevitable; however there are some obstacles which may change crypto currencies original purpose of being decentralized to centralized. This may happen quicker than we think as unfortunately the mass adoption of crypto has brought a dark demographic of society into space. We've all been "Rugged" "Scammed" and "Honey-Potted" more times than we would like to admit, for this reason, we have created Zatcoin.

Zatcoin is presenting an anti-scam platform with future platform listing capabilities including exclusive perks for Zatcoin holders; our aim is to protect investors from scammers while providing them with information that will help them make informed and unbiased decisions as we will not accept promotional payments. We will be capable of examining code and contracts for validity as well as many other features and present this information in an easily readable report for every listed token on our platform.

Zatcoin Tools is introducing a unique and extreme concept token to the crypto world! The token will be usable across the entire DeFi space with the intent to protect the investor from the frequent scams we are seeing everywhere. Holders of Zatcoin will have access to our exclusive platform ensuring they are able to invest confidently knowing their money will not be landing in the pockets of scammers.

We are continuously developing our platform and overall vision on how we can take on this unthinkable task of transferring wealth from the bad to the good people, we will be providing useful information for all levels of crypto investors. Our goal is to educate investors and help everyone gain the knowledge needed to enjoy the benefits of cryptocurrency safely. This will be an ongoing process; we will be updating our community as often as possible to keep up with the people whose intent is only to steal your hard earned money.

We welcome you to join us in our mission to change DeFi we look forward to growing with you and making change for the crypto community!

OUR PROJECT

We will be launching a platform to be utilized by not only retail investors, but also developers and administration of current and future projects. Here is what we will be able to offer them.

Our platform will be a safe haven for developers and their projects as they can be confident in launching a safe contract after being evaluated by our team. Whenever there is a new project launched by new developers within crypto there are always risks involved with contracts and the teams intentions our verification will eliminate risks associated with crypto.

By purchasing and holding our tokens (Zatcoin) the developers will have access to our team to assist with coding and contract validation. They will have the right to be listed with us and rated according to their code/contract details after being evaluated carefully. We also believe there should be a reliable platform where developers can seek services related to crypto this is where ZAT marketplace will help developers in making the right marketing choice as we believe a large proportion of marketing is ineffective these days a large percentage are scams

In an effort to remain unbiased, we will not be accepting ads or paid promotions on our platform. There will be no public voting this removes the risk of paid up votes which usually are not a true reflection on the project itself. There will only be our rating of a score after carefully completing our safety checklist.

Although we will do our best to provide a safe environment for cryptocurrency trading, this platform will not be providing financial advice. We always recommend seeking advice from a financial advisor. This site is for education and information purposes only. We aim to help investors improve their trading skills and basic knowledge.

For our Entrepreneurs and Project Developers our aim is to make ZAT a platform where developers are able to display their work and success.

Our token has been hand coded from scratch by a trusted dev within the space. It has been tested and proven to be functional and sound.

WHY CHOOSE ZAT?

You can be confident that your coding and contract are sound after being evaluated by our team. We will verify your token your new and existing investors will be more confident in their investment. And not have to worry about fraudulently copied or cloned projects that are very common within crypto. As we grow, we aspire to be the leading and most trusted indexing site for the Defi space. No duplicated names will be able to receive our certificate as each project will be manually checked and listed once all requirements have been met.

How will you benefit from buying our token?

The obvious benefit is as the token becomes more popular; the price will increase in value. As a Zatcoin holder you are encouraged to bring the project you're considering investing in to us you can be sure to increase Zatcoin value by giving us greater exposure. We foresee our project becoming not only popular, but incredibly useful in the coming weeks, months, and years! We are a long-term project with many future plans and upgrades planned to accommodate an ever changing crypto currency space.

ROADMAP 2021/2022

JUNE 2021

The initial phase of the project mainly consists of planning and designing the code, and setting up our roadmap. At this stage Zatcoin Tools will develop its main site and focus on the projects roadmap marketing strategy and market research.

SEPTEMBER 2021

In the second stage the token will be fair launched on the 10th September 2021 we will focus on hearing the name through various marketing channels and developing a strong social media presence. Going forward in September we will focus on community building, listings, and strong presence on every platform available while the platform is further developed and updated.

OCTOBER 2021

The third phase of the token will take place as the community has been built and there are loyal community members. Beta version of the ZAT platform will be released on the 1st of October during this stage.

This is where you will have contract scanning tools, and the ability to list new and existing coins. These will all be checked and verified by Zatcoin everyone that lists here will be verified to us I.D verified before listing on ZAT. Our aim is to have this ready by November 2021. Some features we are aiming for during this period:

- Wallet connect
- Dashboard (display your Zatcoin balance)
- Tiers e.g Gold Silver Bronze (different levels of access dependent on your Zatcoin holding)

- Contract scanner (scan any BSC contract easily within seconds)
- Scam alert portal (ability to report scams new and existing projects)
- The token will expand and will apply to newer and more prolific listing websites. We will also apply to be listed on platforms such as Coingecko/Coinmarketcap.

NOVEMBER 2021

Zatcoin will launch v1 of our anti-scam platform. And begin listing new and existing projects that have been verified by us. We believe we will see major growth during this period as listing notable coins on our platform will give us exposure to a large number of crypto users. Zat academy will begin uploading educational videos and Newsletters that will be informative to new and old crypto investors we believe it is important to educate/teach our members ensuring they are up to date with the latest information.

DECEMBER 2021

Zat marketplace this is where you can find developers, influencers, marketers, moderators you will pay us as the trusted third party to hold funds until you have scams from taking place where service providers do not provide a service as promised. We will charge a small fee and buyback and burn Zatcoin. Our aim is to have this ready by December 2021

After the application has been launched we will keep working on marketing together with updating our anti-scam engine. We apply to get listed on Exchange platform

JANUARY 2022

We will launch our third project which is ZAT EXCHANGE we aim to have this by mid 2022 more details will follow very soon

MARKETING STRATEGY

- Partnerships: Zatcoin will partner with several financial institutions and blockchain companies to promote its Anti-scam Engine and directory listing.
- Social Media Marketing: social media today is an efficient marketing strategy for every industry. Zatcoin will adopt all social media marketing strategies to help market its listing directory and services carried out. The platforms that will be used for paid ads include Bing, Google, Facebook, Instagram, Twitter, Telegram, etc.
- Listing on Exchanges: ZatCoin will be listed on major top volume exchanges. Our token and exchange will be listed on coinmarketcap, this is to enable our users to check on a regular price on exchanges, trade our tokens, and as well know our rar on coinmarketcap.
- Word-of-Mouth: In today's businesses, word of mouth is the most efficient marketing strategy. We will ensure our support offers 24/7 support to our customers and users of our exchange. This is to help us maintain good client-customer relations.
